

Sheltered Housing Handbook

This Handbook is designed to be read in conjunction with the Sanctuary Scotland Tenants Handbook.

If you need a copy of the Sanctuary Scotland Tenants Handbook, please ask your scheme manager.

Welcome to your new Sanctuary home

We are confident you will love our sheltered housing, where tenants live independently with our support.

The scheme manager is your key contact for any issues relating to your scheme. For issues relating to your tenancy, please contact your housing officer.

Your scheme manager will:

- Welcome you when you move in
- Show you the communal areas and facilities
- Demonstrate the 24-hour emergency response system (if applicable)
- Provide information on local services (including doctors, bus routes and shops)
- Tell you about any scheme activities (including outings, leisure activities and parties)
- Devise a support plan to help you live independently
- Respond to on-duty emergencies and call for medical assistance if you fall ill
- Contact your family with your consent to make the best arrangements for your care
- Visit you regularly to check you are well (if requested)
- Discuss any concerns you have, at a time convenient to you
- Provide details of your scheme's out-of-hours and emergency procedures

Your individual support plan will identify your support needs. This can include help to:

- Organise social activities
- Stay in touch with relatives
- Contact Sanctuary departments, social services, health authorities and other organisations

Your scheme manager will not:

- Accept gifts from you or your family
- Help you clean your home (but can help you find someone to clean it)
- Collect your pension or handle financial affairs
- Collect prescriptions, except in an emergency
- Cook or shop for you
- Administer any medication
- Assist you when off-duty

Emergency response system

All of our developments provide an emergency response (or 'pull cord') system.

This system allows you to speak directly to your scheme manager when they are on duty. It also allows you to summon help in an emergency.

If you have a hard-wired alarm system, you will find pull cords around the scheme and within your home.

You should only use this system in an emergency.

Emergencies can include:

- Medical issues, like accidents or sudden illness
- Intruders or antisocial behaviour, in or around the building

The emergency response centre can also make checks on request if you need extra support.

The emergency response system is inspected regularly. Your scheme manager will make an appointment with you to carry out these checks.

If you experience any problems with the system, please contact us immediately.

Do not shorten your pull cords. You may need to reach them if you fall.

If you pull the cord but cannot speak, do not worry. The emergency response centre will contact the emergency services if you do not respond.

Communal facilities

Your scheme manager will provide information on communal facilities and any social activities and clubs.

Remember, other residents and guests use these facilities too – please leave these areas clean and tidy.

Any issues with the facilities should be raised with your scheme manager.

Please note:

- It is against the law to smoke in communal areas
- Communal areas cannot be used to store your personal items

Parking

If parking spaces are available, they are rarely allocated to individual residents.

Residents with valid badges can park in designated disabled bays.

Please ask family members and other visitors to respect other residents' needs.

Televisions

If your scheme is entitled to a concessionary licence, any cost for this may be collected by your scheme manager.

Security

We want your scheme to remain safe and secure at all times.

You can help us achieve this by:

- Closing doors behind you
- Asking for identification before allowing others access to your building
- Keeping the door to your home locked at all times

For security reasons, a limit is placed on the number of keys issued to each resident. As a result it is not always possible for you to give additional keys to relatives or friends.

Rent setting and payments

In most cases there are four elements to your rental charge:

- 1. Rent** This is the cost of renting your property.
- 2. Services** These are the associated costs of living in your scheme, including gardening, cleaning and maintenance of communal areas.
- 3. Support** The cost of any support you receive, including some scheme manager costs.
- 4. Alarm** The cost of the emergency response system.

Master key

Some schemes have a master key to access flats in an emergency. We will only use the master key to enter your home if:

- You give your permission
- There is an emergency

To ensure we can access your home in an emergency, please do not fix additional bolts to your door or leave the key in the lock.

Personal information

Your support plan contains personal information, including your health and next of kin.

With your agreement this information may be shared with others to ensure our services are appropriate for you.

Your information is held securely in accordance with the Data Protection Act.

You can access this information any time you wish.

Our sheltered schemes include:

Bressay Brae, Aberdeen

Burnside Court, Mintlaw

Park Street, Aberdeen

Roanheads, Peterhead

Aboyne Terrace, Aberdeen
